

BI Dashboards & Self-Service Analytics

Problem Statement

Analytics bottlenecks occur when business users rely on IT teams for reports. Democratizing analytics transforms decision-making speed.

Solution Approach

- Persona-based dashboards
- Governed semantic models
- Role-based access & KPI standardization

Tools

Power BI | Tableau | Looker | Qlik | ThoughtSpot

Impact Metrics

- 4× faster decision cycles

50–80% reduction in dependency on analysts
